[What is the ATAR?](#)

The ATAR is a rank, not a mark.

The Australian Tertiary Admission Rank (ATAR) is a number between 0.00 and 99.95 that indicates a student's position relative to all the students in their age group (ie all 16 to 20 year olds in NSW). So, an ATAR of 80.00 means that you are 20 per cent from the top of your age group (not your Year 12 group).

Universities use the ATAR to help them select students for their courses and admission to most tertiary courses is based on your selection rank (your ATAR + any applicable adjustments). Most universities also use other criteria when selecting students (eg a personal statement, a questionnaire, a portfolio of work, an audition, an interview or a test).

[How to transfer to a different degree](#)

Many students enrol in a course with a plan to transfer into another course after completing a year's study. A typical example is completing one year of a general degree (such as Arts) and then transferring to a more specialised degree (such as Arts/Law). Other students start a degree only to find it's not quite right for them. They'd like to move to a completely different degree.

Whatever your reason for wanting to transfer to another course, how do you do it?

[HSC and ATAR myth busting with NESAs and UAC](#)

If you're confused about how HSC marks and the ATAR actually work, you're not alone. Setting the record straight, NSW Education Standards Authority CEO Paul Martin, and UAC's ATAR expert Dr Helen Tam, are debunking myths and providing clarity around some common misconceptions.

Whether you're a Year 12 student, a parent, teacher or just curious about the process, this myth-busting breakdown is essential viewing.
