[Australian Institute of Music - Mini Open Day](#)

21 November

Tour our campus, meet your future academics and classmates, explore our state-of-the-art facilities, catch live performances, and discover how our degrees in Performance, Composition, Creative Technology-Audio and Music Business can help you build your career in music.

If you've just finished school or are taking a gap year, this is your chance to see where your future in music begins; and you don't have to wait.

[Australian Institute of Music - Music Theatre Audition Day](#)

21 November

Our open-call audition day offers a collaborative and experience-based environment, allowing applicants to work with faculty and get a sense of what student life is like at AIM.

Across the course of the day, prospective students will participate in a series of classes in addition to a 1:1 interview/audition.

THE AUDITION PROCESS CONSISTS OF:

- **Singing:** Students will be assessed on vocal technique and development potential in addition to general musicality. Two contrasting pieces are required to be performed. All sheet music in the correct keys should be supplied by the prospective student.
- **Acting:** Students will be required to perform a prepared monologue (2-3 mins) of their choosing in addition to general acting instruction on the day, assessing skill level and potential for development.
- **Dancing:** Students will be assessed on their technical abilities, approach to dance/movement and potential for development.

Comfortable clothing that allows you to move well is encouraged. Chorus heels/dance shoes are preferred, if not available any active shoe is acceptable. Pen and paper may be useful, but not essential.

PDHPE

[Charles Sturt University Elite Athlete and Performer Program](#)

Training, performing, or competitive sporting commitments can be challenging and may require additional flexibility. We can support you while you balance your sporting career and study commitments.

Our dedicated staff can support you while you study as part of the Elite Athlete and Performer program. Many of our members can:

- study their course online
- get special consideration for admission
- apply for elite athlete and performer program scholarships
- get flexibility in their studies, sit exams elsewhere or get assignment extensions
- get subsidised on-campus accommodation support
- access tailored study plans and academic support
- use our gyms and sporting facilities
- get free Charles Sturt Elite Athlete and Performer Program apparel
- get Uni Nationals representation subsidies.

STEM courses open up a world of opportunity

As new fields of STEM employment continue to emerge, it's important for today's graduates to be agile and able to adapt their skills to this fast-changing global economy.

What can I do with a STEM degree?

The range of STEM careers is broad and diverse, from biomedical engineering and software development to psychology and accounting. Our graduates are leading varied and fulfilling careers - we've taught Australia's first astronaut, an Antarctic explorer, a chief scientist and a Nobel laureate. The future is looking bright for tech innovators and critical thinkers, and our degrees can help you get an edge over the competition. Our purpose-built labs, teaching and learning hubs are home to the latest technology and equipment, providing you with an engaging and hands-on educational experience.

Find out more about the Faculty of Science, Faculty of Medicine and Health and the Faculty of Engineering and IT's laboratories and facilities.

[Women of STEM Scholarship](#)

Applications Open 18 December

Scholarships for women aged 18 - 20, who are commencing a relevant* STEM related degree.

To help provide opportunities for young women, the ACS Foundation launched the Women of STEM Scholarship Programme for women aged 18-20. These scholarships are open to female students entering their first year of a relevant* STEM degree in 2025 at an Australian University. The Women of STEM Scholarship program is a national program & provides the successful candidates with financial grants of \$5,000 per year for the life of their University degree (maximum of 5 years).

(*please check eligibility criteria on the website)

[Generation STEM Western Sydney - Liverpool Showcase 2025](#)

25 November

As a valuable member of the Western Sydney community, we invite you to join us for a special community showcase featuring the creative STEM solutions developed by local students through the CSIRO Generation STEM Community Partnerships Program.

This initiative brings together schools, industry, and community to explore real-world challenges – such as agribusiness, biodiversity, connected communities, recycling and waste management, and youth – and empowers students to design practical solutions that make a difference locally.

At the showcase, you'll have the opportunity to:

- Explore student-led projects addressing local issues
- Connect with educators, industry mentors, and community leaders
- Celebrate the achievements of young innovators
- Discover how STEM education is shaping the future of our region

[Ocean with David Attenborough – free documentary screening](#)

30 October

Join us for a special screening of the 2025 documentary Ocean with David Attenborough, a visually stunning and thought-provoking film that explores the ocean's vital role in sustaining life on Earth. It examines the impacts of industrial fishing and ocean warming on marine ecosystems, and highlights the benefits of marine protected areas (MPAs) for biodiversity, communities, and climate resilience.
